1. Know your VH-90 Platform

2. How to install

3. Attaching and Removing the Quick Release Plate
   ① Attaching the camera with QR Plate
      Slightly loosen the QR Clamp Locking Knob by turning it counter-clockwise, slide the QR plate laterally into the Quick Release Clamp and tighten the clamp by turning clockwise. You must position the QR plate so the cutout key is on the left side.
   ② While holding the camera, loosen the QR Clamp Locking Knob by slightly turning it counter-clockwise. Remove the camera by fully pressing the Safety Release Button.
